

REMARKS:

1. The Office Action rejected Claims 66-68.
2. Claim 69 was objected to, but was deemed allowable if rewritten to include limitations of all previous claims.
3. With this response, Applicant has amended independent Claim 66 to include limitations provided with previous Claim 69 (which is now canceled). In amending Claim 66, Applicant has made some minor changes to language presented with previous Claim 69. These changes are intended to primarily be grammatical. **As previous Claim 69 was deemed allowable, Applicant submits that amended Claim 66 is in condition for allowance.**
4. Applicant is making the amendments in order to expedite allowance of the application. Applicant respectfully intends no admissions with this submission.
5. New dependent claims 70-72 are presented for consideration. As these claims depend from Claim 66, Applicant submits the claims are in condition for allowance.
6. New Independent Claim 73 and its dependents 74-76 are presented herewith for consideration. Applicant submits that Claim 73 is allowable for reasons stated with previous claim 69 (which is not incorporated into Claim 66). As such, a Notice of Allowance is respectfully requested.
7. The Office Action contained a provisional double patenting rejection to previously pending claims 21-34 of U.S. Patent Application No. 11/173,661, now issued as U.S. Patent No. 7,222,159. A Terminal Disclaimer to this patent is enclosed with this reply.

Applicant submits that all rejections have been overcome and that the application is in condition for allowance. As such, a Notice of Allowance is respectfully requested.
